A SPECIAL from Atlanta to The Courier-Journal says there is sadness among the would-be office-holders of Georgia. The army is no Corporat's guard—it is many strong, all Colonels—and every Colonel wants something big. In a day or two after HOKE SMITH's selection as a Cabinet officer became known therewas great joy in the camp. Every fellow thought be had an inside cinch on HOKE's inflencee, and all knew that HOKE was to be the big man at court, so far as Georgia is concerned. But a large amount of sorrow is now mixed with that joy. HOKE's paper has been speaking, and what it has said does not jeen the gentlemen wiso are willing to sacrifice themselves. The Journal has been laying stress on the Civil Service law. Mr. SMITH has atways been a strong advocate of Civil Service Reform, but the boys thought when he got in he would let up and help Georgia Democracy come to the front. They have looked with longing eyes on the many fat snaps in the Interior Department, especially since the selection of Judge Gersham is supposed to chop off the Democratic Consulta aspirants, but it seems they are doomed to disappointment. ### ANTI-OPTION.

It Has Probably Been Defeated For This Session.

Col. Hatch's Unsuccessful Attempt to Bring Up the Bill

the Garatton Has Undergone a Great Change-Irresident Creata d in Opposed to the Measura.

Washingtone, Pent 23. —The indications are that the anti-option bill has been defeated for the present scession. The defeat of Col. Hatch's attempts Wednesday to bring up the bill shows the temper of the house on this question has undergone a great change. The consideration of the post office bill when a motion was up to bring it to the attention of the post office bill when a motion was up to bring it to the attention of the committee of the whole. On a yea and nay vote for which he made a fight he was beaten by a vote of it to 6t, and passed. After that had been done he opposed the consideration of the Indian sfairs appropriation bill. Here again he was knocked ont, and this time by a vote of 18 to 73. Then the speaker thought Mr. Hatch should be pusished valiant Missourian in the shair. This was not such an unprecedented action, inasamoch as liatch had presided over the committee of the whole when that bill was up for some years.

Col. Hatch had in interviewes and to the would Tuestry Hilbstone grain the consideration of any other measure until he compelled the consideration of the anti-option bill. In these attempts at fillbastering he was beaten twice. That showed that there had been a wonderful change in the feelings of the wonder the share of the wonder of the state of the word of the state of the word

the house.

Another reason, and the one which seemed to be the more accurate, is that Mr. Cleveland had, in a roundabout way, let it be known that he was opposed to the measure.
